

MAKE A MAGIC CARPET

You will Need:

- Piece of colour card for your base
- Different colour paper
- Scissors
- Glue stick
- Pencil/colour pencils
- Hole punch
- Yarn/wool

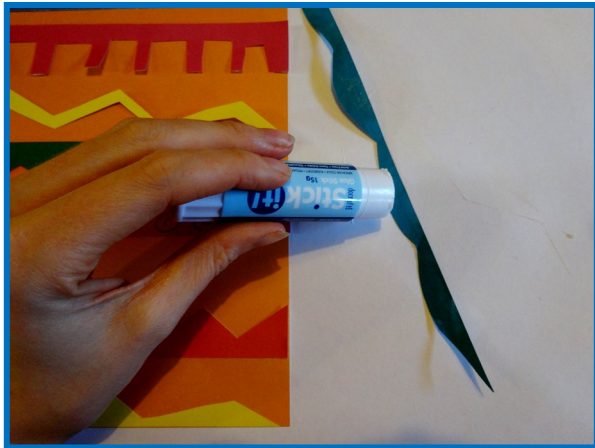

1. Choose a piece of coloured card for the background of your carpet.

2. Next, cut out lots of different coloured strips of paper in different shapes - enough to cover your whole carpet.

3. You can also draw your own patterns onto your cut out shapes. If you need inspiration look at the 'Patterns of Unbound' worksheet.

4. Arrange your different patterned strips onto your base and stick them down.

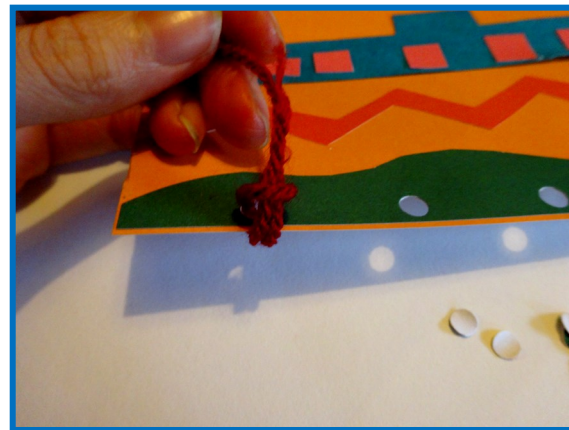

5. Cut out a few different little shapes of paper to add even more colour and pattern to your magic carpet.

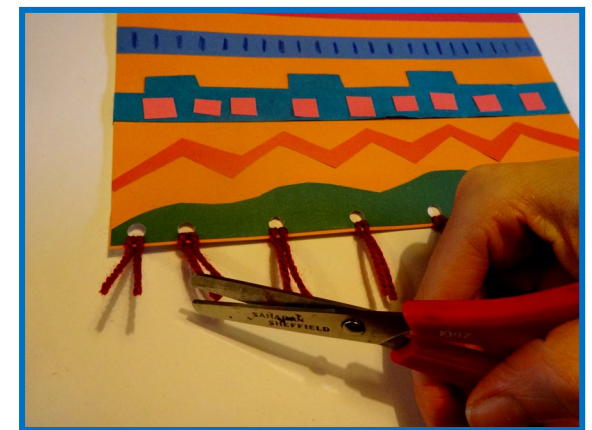

6. And stick them on so it looks something like this...

7. Use a hole punch to make lots of little holes on each end of your magic carpet. Then cut short pieces of yarn, and thread them through the holes to make tassels.

8. Make sure they are properly tied on - ask an adult to help you if you get stuck.

9. Finally, trim your tassel to finish your wonderful magic carpet!
