

DECORATING YOUR BOAT

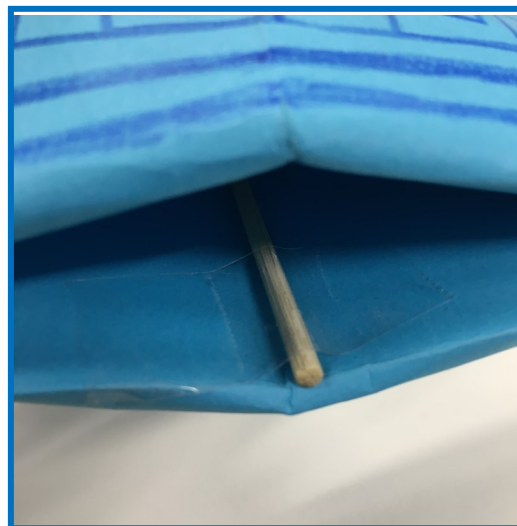

You will need:

- Your boat!
- A stick (e.g. cocktail stick or any small stick you can find around the house)
- Paper for your sail
- Sail template (optional)
- Colour pencils
- Tape

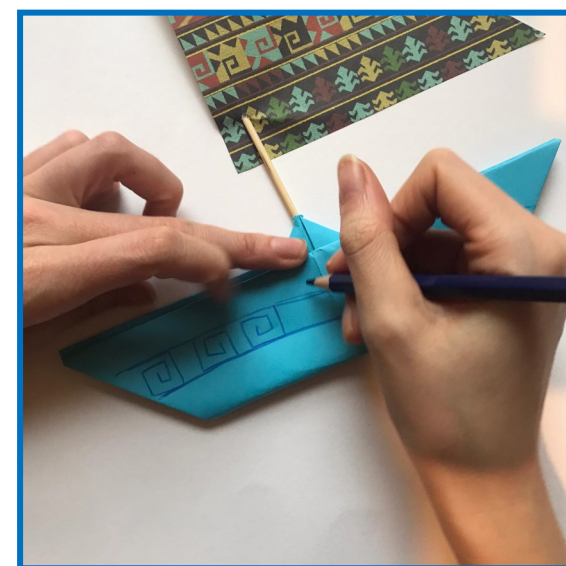

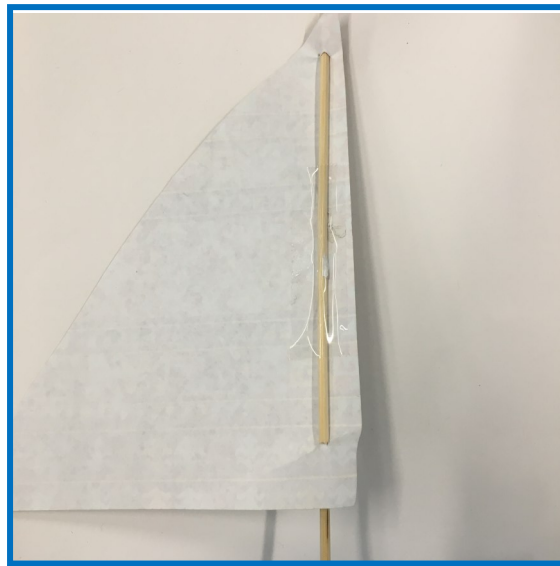

1. Push your stick through the centre of your boat to make your mast (get an adult to help you do this).

2. Secure your mast with tape in side the bottom of your boat.

3. Cut out your sail, you don't need a template for this you can freestyle! You can use patterned paper or decorate your own.

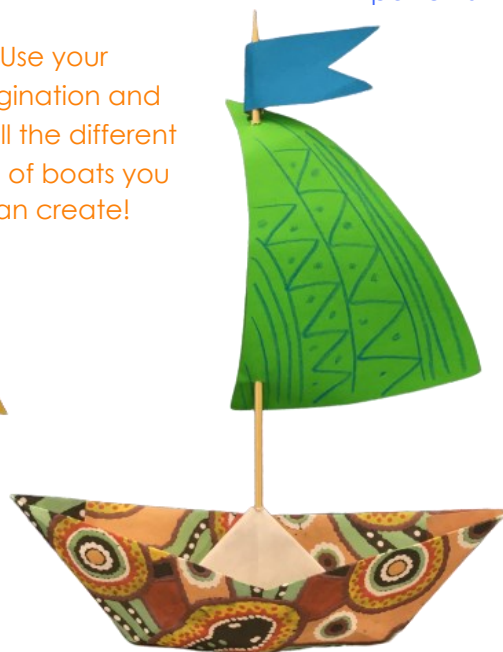

4. Use sellotape to attach your sail to your mast - you may need some help from an adult.

5. Now its time to decorate your boat !

If you need some inspiration on how to add decoration to your boat - look at the 'Patterns of Unbound' resources sheet to see the different patterns from our exhibition.

Use your
imagination and
see all the different
kinds of boats you
can create!
